BACHELOR OF ARTS (THREE-YEAR) General Studies 90 credits

BACHELOR OF SCIENCE (THREE-YEAR) General Studies 90 credits

The goal of the Three-Year Bachelor of Arts and Bachelor of Science concentrations in General Studies is to develop and encourage critical thinking and problem-solving skills as students explore a variety of academic subjects. The BA in General Studies offers the student a wide selection of courses in arts, humanities, and the social sciences, including a second language.

The program allows independent selection of courses based on the student's interest and has the potential for broad interdisciplinary study, with a focus on two to three areas. These programs promote the development of students' interests in different areas and therefore provide the opportunity to bridge gaps created by specialization.

The General Studies programs can provide the required background for a variety of professions or further study. They afford flexibility in a rapidly changing world of work.
