RECOMMENDED DEGREE SEQUENCES

This booklet contains the recommended course sequences for Burman degrees. It is a plan to assist with your degree completion here at Burman. As things change from time to time, it is best to consult with your advisor as you proceed through your degree. Also, the sequences do not take into consideration any minor or certificate that you may wish to pursue. Including a minor or certificate with a degree will require careful planning. Check with your Advisor.

Note, this is a course planning guide only. Actual degree requirements are in the Academic Calendar. Make sure the courses taken actually meet degree requirements. Every effort has been made to ensure the degree sequences cover all required courses. But the ultimate authority for meeting graduation requirements is contained in the Academic Calendar.

COLUMN LEGEND

✓	Place a check in the box when the course is successfully completed. See the actual degree requirements in the Academic Calendar for minimum grade requirements, etc.
R	Refers to the course rotation schedule. See the legend at the bottom of every page. This will help determine when a course is being offered for planning purposes.
PR	Denotes what program area is being met by the course. Check the Academic Calendar requirements for your degree. BR – Breadth CG – Cognate CN – Concentration EL – Elective MJ – Major PF – Professional PP – Pre-professional SP – Specialization
	TR – Track
CR	Number or credits to be taken. Most courses are 3 credits.

** Note: Those entering the BEd AD Secondary Track should have completed a minimum of 36 credits in one K-12 teachable subject (referred to as the "specialization"), and 18 credits in a second K-12 teachable subject (referred to as the "minor"). If either area is short on credits, additional courses can be chosen to make up for these deficiencies.

There are 12 credits required in the BEd AD Secondary track that can be used for this purpose, or the candidate may choose electives to fulfil these credit requirements in Year 1 of the BEd AD sequence. The 12 credits may also be met by previous post-secondary study, as long as they are in excess of the required courses for the candidate's first degree.

*** If the "specialization" and "minor" both required the same methods course, an alternate EDCI 4XX C&I Secondary School methods course must be chosen in the fall of Year 2.

* RELB 201/202/351/352/445/455, EDCI 315, RELT 130, and RELH 315 are not applicable to meet any Alberta Teacher Certification requirement.

** Note: Those entering the BEd AD Secondary Track should have completed a minimum of 36 credits in one K-12 teachable subject (referred to as the “specialization”), and 18 credits in a second K-12 teachable subject (referred to as the “minor”). If either area is short on credits, additional courses can be chosen to make up for these deficiencies.

There are 12 credits required in the BEd AD Secondary track that can be used for this purpose, or the candidate may choose electives to fulfil these credit requirements in Year 1 of the BEd AD sequence. The 12 credits may also be met by previous post-secondary study, as long as they are in excess of the required courses for the candidate’s first degree.

*** If the “specialization” and “minor” both required the same methods course, an alternate EDCI 4XX C&I Secondary School methods course must be chosen in the fall of Year 2.

			Total for Term:	13.5

1 Students scoring less than 80% in the Music Theory Placement Exam must enrol in MUCT 100 (3 credits) prior to enrolment in MUCT 2xx courses.

2 Students enter this program as a music major in one of the three primary performance areas of music therapy practice (piano, voice, or guitar); the remaining two areas will provide the standard, secondary performance areas of music therapy practice. Non-piano majors must be at a minimum entrance level of Grade 6 RCM Piano or equivalent. Students entering below the level of Grade 2 RCM or equivalent one or both of the fundamental secondary areas (voice/guitar) will take applicable MUSI courses to reach the minimum level; students who enter at or above the minimum fundamental levels may request an exemption from the applicable MUSI courses.

3 A BA 4-year music major must be enrolled in a large ensemble each term of residency. Students who have completed the requisite credits for their degree will continue to register for either credit or audit in each subsequent term of residency.

4 Students in this track must work closely with their faculty advisors in the Music and Psychology departments. Student intending to apply to graduate programs in music therapy may need to take additional PSYC courses depending on the specific school of application.
